Robert Ure M.A., LL.B

Barrister, Solicitor, Notary,
has opened a Law office in Crossfield,
where he attends every day
for the general practice of the Law.
Farm Loans and Insurance.
Phone 53, Crossfield.

Local and General

Mr. G. G. Huser intends to open
a Real Estate office at 709 1st St. E
Calgary, about March 2nd, 1925.

If thinking of selling property
list with "GEORGE" who will see
you get a fair deal. See him if you
want to buy.

Fourteen car loads of fat stock
were shipped from the local stock-
yards on Wednesday last. How
does this compare with any other
town along the line same size as
Crossfield for one day's shipment.

Mrs. G. Murdoch arrived home
on Tuesday last, after spending a
couple of months visiting her par-
ents at the coast.

Did you hear how the wheat op-
erators in the U.S.A. have lost to
the advantage of the farmers. For
once the farmers got ahead of them by
getting their prices by Radio and
ordering their wheat sold before
the operators were informed of the drop in price. This comes
from Minneapolis, Minn., and has
happened in North Dakota. Wake
up Crossfield Farmers, see

H. A. BANNISTER,
The Radio Man.

Mr. and Mrs. F. Purvis were
to Calgary, on Monday last.

If you miss the "Olde Tyme"
Concert at the United Church, on
Tuesday, March 17th, you will be
sorry. It is the Entertainment of
the year.

Remember the date St. Patrick's
night.

CHURCH OF THE ASCENSION.

Sunday, March 8th, 1925.
8.30 a.m. Holy Communion,
10 a.m. Sunday School,
11 a.m. Morning Prayer, Sermon
and Holy Communion.
Special Mid-Week Lent Services,
Subject:
"Some Women of the Bible"
March 11th, "Hannah"
" 18th, "Ruth"
" 25th, "Virgin Mary"
April 1st, "Martha and Mary"
A hearty invitation is extended
to everyone to attend these services.

Rev. H. Clay.

UNITED CHURCH, CROSSFIELD

Sunday, March 8th, 1925.
1 p.m. Young Men's Bible Class
under the direction of Mr. A. L. B.
Nicholson, all young men cordially
invited.

Sunday School, Crossfield 2 p.m.
Graded Lessons—Graded Classes
Special invitation to boys and
girls of teen age.
Evening Service 7.30 p.m.
Subject:
W. A. Waldock, Sunday School
Superintendent.
Rev. P. C. McCrae B.A., Minister.
Mrs. J. R. Gilchrist is at present
visiting in Calgary.

Norman D. Dingle,
Barrister & Solicitor,
Bank of Montreal Bl'd., Calgary.

Phone M 7275.

Will be at Crossfield every Thursday
from 9 to 1 p.m.
Or by appointment.

**CROSSFIELD DISTRICT
CO-OPERATIVE ASSOCIATION U.F.A.
LIMITED.**

Atlas Lumber Co'y.

Archie C. McLEES, Local Manager.

You have been intending to try "Red Rose." Why not now before you forget.

RED ROSE TEA "is good tea"

The ORANGE PEKOE is extra good. Try it!

A Dangerous Campaign

An increasingly aggressive campaign is being waged in different parts of Canada by certain organizations and interests in favor of the adoption by the Dominion Government of a policy of export duties, or embargoes, on a number of Canadian products, and the list of such products is being added to as the campaign progresses. This, too, is inevitable because if "protection" is to be provided in one case, it is promptly demanded by others, and, further, the imposition of export duties on one article insensibly affects other articles and industries.

Canada has for the past forty years experimented with the policy of protective duties on imports, but few people will be found to declare that the policy has proven a success and brought that development of natural resources and industry, that absence of unemployment, that increase in population, and that abounding prosperity which the advocates of high tariff protection claimed for it. On the contrary, manufacturers, artisans, laborers and the great body of the common people are all complaining and clamoring for something which is not provided for, and which give them and can never give them.

The people of Canada are now asked to experiment with the policy of export duties on top of import duties. That is, the import duties will, so the advocates say, develop our natural resources for home use, encourage manufacturing industries, provide employment, increase population, and bring national prosperity. In a word, export duties are going to accomplish what the import duties were to have done and failed to do.

The economic and fiscal programme now being mapped out in these "protective" quarters contemplates higher import duties to keep out of Canada foreign-made articles, and the imposition of export duties to prevent Canadian products going out of the Dominion except in a completely manufactured state. Among the products, or natural resources, upon which it has thus far been proposed that export duties should be imposed are logs and pulpwood, water powers and the electrical energy developed from the same, nickel and wheat. While import duties are advocated and imposed as against the whole world, the export duties are clearly designed to be imposed against one country only, namely, the United States.

Supposing the United States chose to regard such a "policy as an "unfriendly act" and adopted a policy of retaliation. What then? What would happen to the cotton mills of Canada and of Great Britain if the United States imposed a prohibitive export duty on raw cotton as a reply to the Canadian imposition of an export duty on pulpwood? Would Canadian and British industry be benefited, increased employment provided, added population and increased prosperity result?

Or, suppose in reply to a Canadian embargo on the export of hydro-electric power, an export duty on nickel or logs, the United States imposed a prohibitive export duty on coal, what would be the result to the manufacturers of Ontario and Quebec, not to speak of the average householder and business man?

And, if Canada should practically prohibit the export of wheat to the United States, who could complain if, in turn, the United States proceeded to put a stop to export of oranges, bananas, lemons, raisins, and other articles of food which Canada cannot itself produce?

No, we are not so foolish as to suppose that Canada cannot export wheat to all countries, because Canada must import its wheat. It cannot make it all into flour, and even if we could and did, Canadians could not eat it, and other countries might well say, "If you won't let us have any of your wheat, we don't want four flour." A general export duty on Canada's wheat would simply paralyse the Dominion. It would be a terrible price to pay for further the flour milling industry which, as it is, is growing by leaps and bounds and paying good dividends.

These two neighboring countries, the United States and Canada, are in many respects complements to each other. In regard to certain products they are inter-dependent. Man, not nature, drew an imaginary dividing line across the continent from east to west, a line which the good sense of both peoples has kept free of bristling cannon and fortifications. Mistakes have been made in the past in the erection of tariff walls between the two countries, and the United States has been the chief offender, but it was Canada who rejected the last overtures in 1911 for greater freedom in trade. It should be the policy of both countries now to lower the existing barriers, rather than to raise them or create new ones. Both countries would benefit from such a policy.

On the other hand, both must suffer from the inauguration of policies leading to retaliatory export duties, and possibly the greatest loss of all would be a lessening of the good feeling now prevailing between the Dominion and the Republic and the engendering of feelings of bitterness and hostility. It is sincerely to be hoped that Canadian statesmen will hesitate a long time before being stampeded into adopting a policy of export duties. Apart from everything else, Canada has not yet reached that stage of development, nor attained that population, where the imposition of export duties are either desirable or necessary.

Wallpaper Two Centuries Old
Antique wallpaper, 200 years old, will be used on the walls of a room being built in the English furniture gallery at the Kesterton Kesterton. The room will be a copy of an eighteenth century apartment and will contain furniture made at or about the time when Queen Anne died. The wallpaper has been taken from the National Park at Banff, Alberta, and will travel to their destination via New York.

Rocky Mountain Sheep For Australia
A somewhat unusual consignment passed through Montreal recently in care of the Dominion Express Company, in the form of six Rocky Mountain sheep, which are enroute to Australia to form part of a zoological exhibit there. The animals, which are valued at \$600, were from the National Park at Banff, Alberta, and will travel to their destination via New York.

WANTED-INVENTIONS

During the past 14 years we have patented thousands of inventions for clients and inventors, and we are constantly enquiring from us as to new inventions. We are in a position to pay for an oil can from which he is receiving the sum of dollars annual royalty. Another client patented a device which, when used to turn your head into a position of comfort, restores your health. The value of your invention greatly depends on the number of claims you can make. If your individual clients, we are retained by many inventors, and we are in a position to pay for an oil can from which he is receiving the sum of dollars annual royalty.

At present Ottawa (where the Patent Office is located) is a small preparation and persons are constantly enquiring from us as to new inventions. We are in a position to pay for an oil can from which he is receiving the sum of dollars annual royalty.

Another client patented a device which, when used to turn your head into a position of comfort, restores your health. The value of your invention greatly depends on the number of claims you can make. If your individual clients, we are retained by many inventors, and we are in a position to pay for an oil can from which he is receiving the sum of dollars annual royalty.

Old Convent Is Re-opened

English Nuns Live Same As Inmates
Of 700 Years Ago

After being used for secular purposes for close upon 400 years, a 13th century convent building at Burnham, Buckinghamshire, is once again in the occupation of a community of nuns.

There are 100 nuns leading almost exactly the same life as that adopted by the inmates in 1200 A.D., while their dress, their services, and their prayers and meditations are much the same as those of nearly 700 years ago.

BEAUTIFY IT WITH

"DIAMOND DYES"

Perfect home dyeing and tinting is guaranteed with Diamond Dyes. Just dip in cool water to dilute, shade or boil to dye rich, permanent colors. Each 15-cent bag keeps a good constant direction, so simple any woman can dye tints, silks, ribbons, skirts, waistbands, dresses, coats, stockings, sweaters, draperies, coverings, hangings, everything new.

Buy "Diamond Dyes"—no other kind—and tell your druggist whether the article you wish to color is wool or silk, or whether it is linen, cotton or mixed goods.

Defend Reputation Of Poet

Edgar Allan Poe's reputation as a bachelorette leaps logically to the defense of a bachelorette's reputation. Edgar Allan Poe, he says, could never have written seventeen masterly stanzas if he had been a drunkard.

HER NERVES SO BAD SHE COULD NOT SLEEP

Mrs. Grace Kitchen, St. George, Ont., writes: "After having a severe attack of pneumonia I was left in a weak and run-down condition. My nerves were so bad I could not sleep nights, and in the day time I had terrible fainting spells, caused by my heart being weak. I finally got so bad I had to take to my bed for weeks at a time, but one day I read about

MILBURN'S HEART AND NERVE PILLS

so decided to try them. After taking one box I felt a slight improvement. I have now taken five boxes, and have gained 25 pounds in weight. I am now more energetic and able to do all my own housework as well as considerable outside work. I can't recommend Milburn's H. & N. Pills too highly for those suffering as I did."

**Japan Interested In
Canadian Sheep**
Animals Imported From Canada Have
Been Found Satisfactory

The Japanese Government is doing everything possible to encourage the raising of sheep in Japan. Not more than 15,000 to 20,000 pounds of wool have been for barter during any one year, against the importations of 60,000,000 pounds a year, says E. Bryan, from Kobe, Japan, in the Commercial Intelligence Journal. He reports that small numbers of animals have already been imported from Canada, and the Japanese authorities have found these animals very satisfactory and class them as the second best so far received from any country.

The most obstinate corns fail to resist Dr. H. C. Coyle's Corn Remover. Try it.

The Whaling Industry

The whale industry in British Columbia produces annually about 400 tons of whale bone meal and 900 tons of whale oil, used in fertilizing purposes. A small quantity of this is sold as fertilizer in the provinces and the remainder is exported, principally to the United States.

It is well to be in touch with many people. The man who keeps other people from looking in on him shuts the windows and draws the curtains so that he can't look out.

For Every Ill—Minard's Liniment

W. N. U. 1865

SUNDAY SCHOOL LESSON

MARCH 1

CHRIST BEFORE PILATE

Golden Text: He was wounded for our transgressions. He was bruised for our iniquities. Isaiah 53:5.

Lesson: Matthew 27:1-31.

Devotional Reading: Isaiah 53:1-6.

The Text Explained and Illuminated Great Tribulation, John 11:14.

Now Jesus stood before the chief priests and the elders, and the whole council. "When the King walked away with his captors he did it because he was willing, not because he was helpless. With a combination of the two, it was his life."

Humiliation and pain are always associated—you never find one without the other.

He was born a slave, he was circumcised, he submitted to baptism, yet above him were the open heavens declaring, "This is my beloved Son."

He received water from a natural spring, he was born within the soul.

He slept in the boat like a tired man—yes, commanded the Master. "He wept at the grave of Lazarus, yet he spoke into the spirit of the world to call him back."

They came to take a prisoner who had stirred out within hands. He stands a prisoner in the hands of the condemned judge" (Dr. Gruber, W. B.).

And the governor asked him, saying:

"Art thou the King of the Jews?"

"Can't you see I'll die, with something of contempt and something of pity in my looks, as he put the question to me?"

"You are weary, you are wearied, deserted, bound—and thought him a pathetic picture of royalty?"

That Jesus claimed to be the King of the world, the Son of God, was the Sanhedrin because they wished

to make a political charge, one hostile to Roman supremacy, in order to influence the people.

Jesus' reply: "One is already prepared for such a reply to an equivalent question, and there is a temptation to seek exact words, but the words of terror—Dost thou say I am God?"

"Even so say I, make no statement."

Explanations such as are given in John 18:37 were certainly necessary.

(Expositor's Greek Testament.)

Urge Registration Of Sires

Heartly endorsement of the plan of advancing registration for bulls as recommended by the central cattle committee, was given at Toronto by the annual meeting of the dual purpose shorthorn Club of Canada.

Persistent Asthma. A most distressing characteristic of this debilitating disease is the persistence with which recurring attacks continue to say

nothing to leave the sufferer in a state of almost continual exhaustion.

No wiser precaution can be

taken than that of keeping at hand a good and reliable Remedy.

J. D. Williams' "Asthma Remedy" is famous as the most potent remedy for eradication of the disease from the tender air passages.

Immigrants From U.S.

During the past year 6,477 persons entered Western Canada from the United States, as compared with 8,704 in 1923, according to a report issued by immigration officers. The 1921 immigrants brought with them cash totalling \$1,995,347 and effects to the value of \$344,151.

The Liver Is the Road to Health

If the liver is right the whole system is better off.

Carter's Little Liver Pills awaken your sluggish liver and relieve constipation, stomach trouble, indigestion, bowel trouble, loss of appetite, rheumatism, neuralgia, headache, and dizziness. Purely vegetable.

You need them.

Small Pill—Small Dose—Small Price

Jap Suffragettes

Japanese women have formed an organization to obtain full suffrage rights.

The society says that Japan has more than 4,000,000 women doing the work. Only four per cent. of the women invited to the first suffragette meeting attended.

HELP FOR TIRED NERVOUS PEOPLE

Found in the Use of Dr. Williams' Pink Pills

Are you pale and weak, tired most of the time, out of breath on slight exertion?

Are you nervous. Is your sleep disturbed so that rest does not refresh you?

Is your appetite poor, your digestion weak and do you have pains after eating?

If you have any of these symptoms you need the help of such a reliable physician as Dr. Williams.

Read what Mr. W. W. Francis of Calgary, Alta., says of this tonic.

"After returning from overseas," writes Mr. Francis, "I found that the whole system was in a bad run-down condition. I became nervous, irritable, pale and lost weight."

Of course I was given treatment and I am now in much better condition, some of which I took, but with no apparent result.

"At last I could not even sleep. My sister, who is in England, suggested that I take Dr. Williams' Pink Pills and I took them. I scarcely say how glad I am that I took her advice."

"My friends were surprised at the improvement I received, but I assure them it was due entirely to Dr. Williams' Pink Pills."

Dr. Williams' Pink Pills are now available.

In 1868 a coach and mail service was begun between Boston and Hartford.

All mothers can put away anxiety regarding their suffering children when they have Mother Graves' Worm Extminator to give relief. Its effects are sure and lasting.

King George gave a hundred pounds of coal to all the poor people in the royal borough of Windsor above the age of 60 years.

**FOR Lumbago
BAYER ASPIRIN**

Proved/safe by millions and prescribed by physicians for

Lumbago Colds
Headache Pain
Neuralgia Toothache
Rheumatism Nervitis
Safe

Accept only "Bayer" package which contains proven directions. Handily "pays" best of 13 tablets. Also bottles of 24 and 100—strung.

Bayer is the trade mark registered in Canada of Bayer Manufacture of Monosodium Acetate of Salicylic Acid (Acetyl Salicylic Acid, "A. S. A.") While it is well known that Aspirin contains Salicylic Acid, the Bayer name is a registered trademark, and the Bayer name is the only guarantee of quality.

WANTED-INVENTIONS

During the past 14 years we have patented thousands of inventions for clients and inventors, and we are constantly enquiring from us as to new inventions. We are in a position to pay for an oil can from which he is receiving the sum of dollars annual royalty.

Another client patented a device which, when used to turn your head into a position of comfort, restores your health. The value of your invention greatly depends on the number of claims you can make. If your individual clients, we are retained by many inventors, and we are in a position to pay for an oil can from which he is receiving the sum of dollars annual royalty.

WEEKLY NEWS BULLETIN

Issued by Publicity Commissioner
Government of Alberta,
Edmonton.

Natural Resources Settlement.

Announcement that the Alberta Government had accepted the offer of the Federal Government with respect to the return of the natural resources to provincial control, was made in the Legislature during the past week by Premier Greenfield. The basis of settlement is that the province will take over the remaining resources, and will receive a payment of the amount of the present subsidy for three years. The agreement is subject to authorization by both the Federal Parliament and the Provincial Legislature.

Money for Railways Extensions.

The Provincial Legislature will be asked to vote the sum of \$520,000 for the twenty miles extension proposed to be built to the Lacombe and Northwestern Railway. The sum of \$130,000 will also be asked for maintenance and upkeep equipment on the A. and G.W. line, which may or may not be required. Last year the Legislature voted \$184,000 for this purpose, but none of it was required. This year a smaller sum is being asked.

Transcontinental Phone Connection.

It will not be long before Alberta people will be able to hold phone communication with New York, San Francisco, and other points in the United States. Within the next three months, connection will be established between the Alberta Government phone system and the Transcontinental phone system in the States, by means of three long distance lines which are to be brought to the southern border of the province by way of the Mountain States phone system in Montana. This will provide almost continent-wide phone connection for Alberta.

Important Discovery by Alberta Doctor.

Further developments in the research work at the University of Alberta, have recently been revealed. Dr. J. B. Collip, co-discoverer of insulin, at a recent meeting in Washington of the American Association for the Advancement of Science, read a paper dealing with a new and important discovery, extracting from the parathyroid gland a substance of great medicinal value. In this connection the following facts have been made known.

A considerable number of physiologists and biochemists have

been for a number of years working on the parathyroid gland in hope they might extract from it the substance which it was believed to contain which would have a regulatory effect in connection with certain diseases. Last October, after intensive work and study, Dr. Collip succeeded in getting out this substance which, as experiments proved, has the same relation to the calcium content in the blood as insulin has to the sugar content. After exhaustive tests Dr. Collip proved the efficacy of the extract thus made on animals. Later he reported to the Canadian Medical Journal a very remarkable result from the application of it in the case of tetany in a child who was brought into the laboratory in a very rigid condition and who was immediately relieved by the use of the material. At present the clinical effect of the material is being tested by some of the leading clinicians on the North American continent, including those at the University of Alberta, McGill University, University of Toronto, Manitoba University, and Johns Hopkins University. The material for the purpose is being supplied from the University of Alberta.

WHERE A MISSTEP MIGHT MEAN DEATH

THE Hoodoos on the Cavell Motor Highway, Jasper National Park, are stone figures brought into being by the constant wearing effects of air and water, drawn on the rock by the wonder of thousands of tourists who visit the largest of Canada's National Parks every year.

Huge, flat stones, balanced as they stand on the pinnacles of earth which have stood up firmly when the mountain side all around them crumbled or was washed away by the rushing waters, seem as though

the slightest breath of wind would be sufficient to send them hurtling down into the bottom of the valley hundreds of feet below. A favorite sport with the tourist is to drop large stones on the hoodoos and see them swing back and forth only, and finally regulate their pulse and remain balanced as firmly as before.

The tourist in the photograph, who was bold enough to scramble down and use one of the flat stones for a table on which to rest his arms, had a strenuous climb be-

fore he again regained the level surface of the Cavell Highway, while wind up from the Athabasca Valley almost to the foot of the glacier of the Ghost, that peculiar age-old formation of ice and snow, which stands on the wide stretches of Mount Edith Cavell.

Visitors to Jasper Park Lodge may travel by motor or saddle horse from the Lodge to the foot of Mount Cavell or any of the other mountains surrounding the log cabin hospitality of the Canadian National Railways.

FORKE WANTS A NATIONAL POLICY FOR ALL CANADA

Ottawa.—In his speech in the debate on the address in reply to the speech from the throne, Robert Forke, Progressive leader, said it was of the opinion that through the development of private enterprises and public utilities rather than through the passage of legislation which met the mood of the moment and too often was forgotten as soon as it was on the statute books, would bring Canada out "of the land of bondage into the land of progress." It was not possible to leave the national problems entirely to the government to solve. It was a task for all Canadians to face and help overcome.

Referring to the speech of the premier and the leader of the opposition, Mr. Forke said they furnished an interesting study in extremes of mood. Both speeches were unusual. He referred to the speech of Mr. McGehee as a most happy document, and described "his solution as something like a Christmas tree—something on it for everyone." No amount of reasoning or argument could convince the people living on the prairies that protection would prove of any use to them. The much talked of home market would not solve the problem for the western wheat producer. "We want a national policy for all the people of Canada from the Atlantic to the Pacific."

Disagree on One Point

France Not Ready to Consider Debts and Reparations Separately

Paris.—The official impression of note on the inter-allied debt question from Winston Churchill, British chancellor of the exchequer, is more favorable than the opinion of the document expressed by the French newspapers, editorially. It was said in circles near Premier Herriot. The British suggestions are regarded as very generous and as presenting only one important difficulty, that involved in the separation of debts from reparations, it was declared.

The country, in the opinion of official circles, is not yet ready for a discussion of the two questions separately. This, it was intimated, is the only point that prevents immediate acceptance of Mr. Churchill's note as the basis for a settlement of France's debts to Great Britain.

Rate Discrimination

Higher Westward Freight Rate Justified Says D'Arcy Scott

Vancouver, B.C.—There was no justification for a higher freight rate westward than eastward, even on products intended for export, D'Arcy Scott, K.C., former assistant chief commissioner of the board of railway commissioners, told the members of the board of trade here.

Cost of operation on the lines westward from the prairie provinces was not any higher than on the eastward lines and grades were lower, Mr. Scott declared.

Turkish Deputy Shot in Assembly

Constantinople.—During an argument in the Turkish National Assembly, Halid Pasha, deputy for Ardahan, drew a revolver and fired several times at Deputy Ali of Adum Kara, who was slightly wounded. Immediately afterward, Deputy Halid was himself seriously wounded by a shot fired by an unidentified person.

LORD D'ABERVILLE

British Ambassador to Germany, whose visit to Chancellor Luther is understood to have been in connection with the negotiation of a security pact.

Progressive Member Would Put Ban on Horse Racing

Ottawa.—Horse racing will be brought in the House of Commons again this session by W. G. Good, Progressive, Brant, who has given notice of a resolution which reads: "That the special privilege now given to racing associations, under the Criminal Code, of carrying on public gambling operations in connection with their race meetings, is detrimental to the best interests of Canada, and should be abolished."

Protest From British Farmers

Claim U.S. Bacon Floods Market As "Best Quality" Canadian

London.—On the contention that they are being "hoodwinked" to the tune of 25,000,000 pounds of bacon a year—bacon which is cured in the United States and sent to Canada and then re-exported to England as "best quality Canadian"—the National Farmers' Union of Great Britain has started a petition here to put end to the practice.

It is also contended here that the Canadian Government has been lured by various organizations to create a distinctive brand which is to be placed on all exportable bacon from Canada in the future.

The Farmers' Union also took a leading hand in bringing about the embargo on American potatoes which became effective some time ago, this action having been taken. It has been explained, to prevent an influx of the Colorado beetle, better known over here as the American potato bug.

Liquer Freight Rates Remain

Ottawa.—In dismissing the complaint of the Manitoba Government control commission against carload commodity rates on liquors, wines and spirits, the board of railway commissioners states, in a judgment made public here, that no good reason has been established in evidence as to why liquors should be given a different treatment as to rates from other commodities.

Building Decreased Last Year

Ottawa.—According to revised statistics of building permits, furnished by the Dominion Bureau of Statistics by 60 cities, construction work was slightly less active in 1924 than in 1923, or 1922. The building in these cities during 1924 was valued at \$223,731, in 1923 at \$133,201,347, and in 1922 at \$147,962,173.

Debates Travel in Steerage

Honolulu.—The Oxford University debaters, headed by Malcolm MacDonald, son of the former British premier, arrived here in steerage, because there were no other accommodations available when the vessel left San Francisco, and they did not wish to postpone their departure.

Would Deport Criminals

Washington.—Deportation of all aliens convicted of violating the national prohibition laws or of white slave laws is provided in a bill passed by the house. The vote was 213 to 39. Measure was framed by Rep. Holiday, of Illinois, Republican. It now goes to the senate.

Allocate Proceeds of Fine Imposed On Egypt

London.—The House of Commons has accorded the government formal authority for the disposition of £500,000,000 imposed on Egypt for the murder of the Sirdar, Major General Sir Lee Stack. Arthur Chamberlain, secretary for foreign affairs, announced that £49,000 had been paid to the Sirdar's widow as compensation; £2,000 to the Sirdar's side of camp, Major P. K. Campbell; £3,000 to the Sirdar's chauffeur, also wounded. The remainder is in the hands of the government, to be applied to benevolent objects in the Sudan.

Armenian Charged With Fraud and Conspiracy

Mounted Police Have Uncovered Plot to Smuggle Undesirables

Ottawa.—A conspiracy involving fraud and impersonation against the deportments of the secretary of state, immigration and colonization and external affairs, in illegally obtaining certificates of naturalization, passports and immigration permits, the entry of foreign Armenians and other entries, has just been unearthed by the Royal Canadian Mounted Police.

As a result of investigation by the police, G. H. Alexander, an Armenian, was arrested at Galt, Ont., and appeared in the Ottawa police court on a charge of conspiracy. He pleaded not guilty, elected to be tried by a jury and will come up again for preliminary hearing.

Officer Is Promoted

Supt. Knight of R.C.M.P. Obtains Rank of Assistant Commissioner

Ottawa.—Announcement is made of the promotion of Superintendent R. S. Knight, Canadian Mounted Police officer commanding in British Columbia, to the rank of assistant commissioner. The promotion dates from January 1, 1925.

Assistant Commissioner Knight joined the force in May, 1890, and during his career has served at Revelstoke, in the Yukon, at Winnipeg, and with the Royal Canadian Mounted Police squadron in Siberia.

Australia Not Helping Aliens

Premier Bruce States Government Does Not Encourage Immigration

Melbourne.—Reply to the Victorian Government's protest against the unrestricted immigration of Southern Europeans, Federal Prime Minister Bruce laid stress on the fact that no encouragement or assistance had been offered to aliens.

The Federal Government, he added, had announced recently that it desired to limit the issue of passport visas to Greeks and Jugoslavs to 100 a month for each nationality.

Shoulder Blads Of Mammoth

London.—While digging next to the Bigrave Hospital for Children in Clapham Road, workmen found a large fan-shaped bone six feet below the surface. An expert from the National History Museum, pronounced the bone the shoulder blade of a mammoth belonging to the pleistocene epoch of approximately 10,000 years ago.

Jumped With His Majesty

London.—Frank B. Kellogg, has presented his letter of recall from the post of American ambassador to King George. The King and the ambassador exchanged farewells and then sat down to luncheon in Buckingham Palace.

Withdraws From Opium Conference

STEPHEN G. PORTER

who has withdrawn, together with other members of the American delegation, from the international opium conference.

League May Meet In Canada

Suggestion Made to Hold Session of League of Nations at Ottawa

Geneva.—The idea of holding some future assembly of the League of Nations in Canada, presumably Ottawa, is being quietly broached at Geneva. The suggestion originated with Sir Herbert Ames, Canadian director of the league's finances, and it is said if adopted it would have the hearty support of the Canadian Government and the British dominions.

So far, the project has merely reached the unofficial stage of suggestion, but it is understood the delegates of many countries have privately approved the plan. One thought expressed is that the location of the assembly in Canada would bring the workers of the league home to the people of the United States, as well as the Canadian people.

China Withdraws From Opium Conference

Failure of Attempt to Suppress Opium

Geneva.—The Chinese delegation withdrew from the first or far eastern opium conference when that body was brought together again to reconsider its findings.

In his letter to the conference, the chief Chinese delegate, S. Alfred Sze, said the withdrawal was due to the conference's failure to adopt a system for the suppression of opium smoking in the Far East.

The Chinese have now withdrawn from both the bodies which were convened in Geneva to deal with the opium and narcotic drug, evil. Mr. Sze left the international opium conference, February 7.

Latvia Passes Liquor Law

Riga, Latvia.—The anti-alcohol wave is sweeping over Latvia. A law has been passed which is tantamount to prohibition, and it has been seized upon by the city authorities of Riga to descend upon some 50 hotels and restaurants on the grounds that they were selling liquor. The city fathers are now considering whether these places should not be made to close down for good.

Aquith's Title Officially Announced

London.—The official gazette announced the issuance of letters patent, dated February 9, confirming the title of Viscount Aquith and Earl of the United Kingdom upon Herbert Aquith, and his lawful heirs, by the titles of Viscount Aquith of Morley, in the west riding of Yorkshire, and the Earl of Oxford and Aquith.

Greece Appeals to League

Geneva.—Greece has appealed to the League of Nations against the action of Turkey in expelling the Most Rev. Constantines, patriarch of the Greek Catholic Church, from Constantinople, claiming that this action endangers the friendly relations between the two countries.

Cables Connection With Italy

Rome.—The completion of the cable between Italy and America was announced in the senate by Minister of Communications Ciano. The announcement was greeted with loud applause by the whole senate, which rose to its feet cheering.

C.N.R. TO SPEND EIGHT MILLIONS ON BRANCH LINES

Ottawa.—The Canadian National Railways spent \$1,656,751 on branch line construction work in the calendar year of 1924. The estimated expenditure on branch lines in 1925 is \$8,766,585. The whole programme of the Canadian National Railways involves the construction of 548 miles at an authorized expenditure of \$15,168,000.

The report of the department of railways tabled in the House of Commons gives full details of all work done on all branch lines.

A total of 915 miles of track were laid; 385 miles were ballasted; a proportionate amount of grading work was carried out, and 72.8 miles of telegraph lines were added to the system. The greatest progress was made on the Peebles, Sask., Prince Albert, Brandon, and St. Boniface, and Grande, Quebec, branches. Some further work, which will practically complete these branches is provided for in 1925.

Russia Needs Flour

Failure of Crop Giving Soviet Government Grave Concern

Moscow.—With the failure of this year's crops the question of providing flour for Russia's millions of population is giving the Soviet Government increasing concern. Renewed efforts are being made to meet the acute shortage of grain in the area. With the exception of the Caucasus area, Russia had an unusually mild and irregular winter this year, affecting crops adversely. The absence of snow and moisture has caused large snow areas to perish.

It was announced at a meeting of the government's central executive committee that Russia had spent 70,000,000 gold roubles in providing the population with sowing material for the next harvest.

Characterized As Political Sop

Ontario Beer Prohibited By Toronto Globe

Toronto.—Commenting on the stronger beer proposed introduced in the legislature, the Toronto Globe says:

"The announcement is easily the most sensational that has come from Queen's Park in many a long day. The whole question of prohibition and perhaps more important, the matter of a premier's pledged word, are thrown into the political cauldron."

The Globe contends that the proposed legislation violates the basic principle of the temperance law and characterizes it as a 'political sop' thrown to the 'wets' in the Conservative party.

Silver Coins For Russia

Moscow.—Ten million dollars' worth of silver coins made in Great Britain by the Soviet Government, have been placed in circulation. Orders were given at the same time to the state mint at Leningrad for a supply of gold chervonets, which heretofore have been issued only in paper.

Camera And Radio Are Of Great Assistance To Work Of Making Surveys In Canada

The radio, the camera and the airplane have revolutionized surveying in Canada, according to Fred V. Scott, of the Natural Resources Intelligence Service of the Department of Interior, before the Camera Club of Chicago recently. For a number of years the camera has been used extensively on Dominion land surveys in mapping out the rugged and in some cases inaccessible portions of the Rocky Mountains, securing a mass of detail correct in every respect that could be secured in no other way. Since the war the airplane has been instrumental in extending the camera's use for mapping purposes into the unexplored regions of the north. Within the last two years many lakes upon which shores the foot of white man has never trod have been accurately mapped from the air with the aid of the camera.

The radio is being used extensively at the outposts of civilization and in the unexplored regions as far north as the Arctic in securing time signals for the purpose of determining longitude. Longitude determinations under the old system were very difficult and lacking in accuracy in regions not served by the wire telegraph system. They are now a simple operation, due entirely to the development of the radio.

The Dominion land surveyor has been a pioneer in putting the radio to practical use. Years ago, before the city resident was received in the house, the radio took its first report from the air, surveyors were receiving time signals on the shores of the Mackenzie River and the Arctic coast from high-powered stations to the south.

Occasionally he took time to decipher the news dispatches, getting news of the law prize fight, ball games or what someone had said about the League of Nations before the man on the street in civilization even read it in the newspaper or saw it on the bulletin boards.

Last summer, Mr. Blanchet, D.L.S., of the Canadian topographical surveys, when working on Great Slave Lake, built a radio station on the ice to hand, erected a shelter between two paddles held up at the ends of his six-foot canoe. From this he received the midday time signal from Annapolis, Maryland, and so checked the error of his chronometer.

Although the time of transmission of electric signals on telegraph lines is of the order of 10,000 miles per second, the speed of wireless signals is very materially greater, so that for ordinary distances the time is a negligible quantity, 186,000 miles per second.

Stations from which signals have been received on exploratory surveys in the following countries: British Columbia, San Diego, San Francisco, Honolulu, Corito (Philippines Islands), while the head office at Ottawa recorded daily Bordeaux (France), Annapolis, San Diego and San Francisco. By intercomparison of the same signals in the north and at Ottawa, with their respective clock corrections, the longitude of the different points in the north are obtained, which, it may be stated, are materially different from those shown on the maps before the observation.

Indians Are Good Farmers

896,464 Bushels of Grain on Indian Lands in 1924

Total production of grain of all kinds on Indian lands during 1924 was 896,464 bushels, according to a report of the department of Indian affairs. Of the total 469,024 bushels were wheat. Other grains produced last year are as follows: 253,629 bushels of oats and 72,377 bushels of barley. In addition some 50,000 bushels of potatoes were raised and 65,000 tons of hay were cut and put up for the winter.

The most valuable result of education is the ability to make yourself do the things you ought to do, when it ought to be done, whether you like to do it or not.

Australia is slightly larger than the United States in size and has a population of five and one-half million.

Neutralizing Cream For Buttermaking

Churning Pasteurized Cream Causes Loss of Butterfat

Dairy scientists have demonstrated the fact that the churning of pasteurized cream causes loss of butterfat and gives a poor quality of butter unless the cream has been neutralized in the process of churning. When butter is made from unpasteurized cream, neutralization is unnecessary. Mr. W. F. Jones, chief of the division of dairy manufactures, dairy and cold storage branch, department of agriculture, Ottawa, has prepared a pamphlet on this subject, designated Pamphlet No. 52, New Series.

The process of neutralization is not one that can be carelessly carried out, as it requires an intelligent observance of the details of testing cream for acidity, preparation of neutralizing solution and its application, determination of the required amount, and the temperature of the cream when adding the neutralizer.

Four neutralizing agents are recognized: lime, alkali, sodium bicarbonate (baking soda), and a commercial product known as wyo-aidone.

This pamphlet, which is available at publications branch, department of agriculture, Ottawa, will be found particularly useful to creamy butter-makers.

Vegetable Cultivation in the West

Information Regarding Cultivation Of Thirty Different Varieties

Mr. W. C. McKillip, superintendent of the Brandon, Man., experimental farm, who recently gave us through the department of agriculture at Ottawa, a bulletin on "Experiments with Wheat" covering a period of over three years, has now, in cooperation with Mr. J. H. Cooper, head gardener at Brandon, produced a bulletin, No. 43, on "The Prairie Farmer's Vegetable Garden." This publication is equally as comprehensive as the other and contains a vast deal of information regarding the cultivation of some thirty different vegetables, including all the common kinds that supply every man and woman's table. These are divided into five classes, vegetables grown from root or tuber, such as potatoes, beets, carrots, and so on; vegetables grown for the steam-asparagus, rhubarb, etc.; vegetables grown for leafy bloom, cabbage, cauliflower, etc.; vegetables grown for seed or pod, pea, bean, etc.; and vegetables grown for fleshy fruit, cucumber, tomato, etc. "Information as to soil, location and general cultivation is given relative to each of the thirty-

Ships Devoted To Emigrants

German Line Provides First-class Comfort for Third-class Passengers

A line of one-class passenger ships devoted exclusively to the transportation of emigrants has been inaugurated between European and South American ports by a German steamship company. The first ship of the line to arrive in Buenos Aires brought 1,000 Germans and 1,000 Americans to Brazil and 1,600 to Argentina.

The ship provides first-class comforts and conveniences for the third-class price. She has 250 cabins, accommodating two, four and six persons each, with saloon, smoking room, library, reading room, two large dining rooms, barber shop and baths. She is a motor-propelled ship, with a speed of 15 knots.

Our Old Hymn Book

Hymn book 146 years old, edited by John Wesley and published in 1779, is the property of a resident of Indianapolis, Ind. The 116 hymns were written by Charles Wesley. The volume is about 2½ inches by 4 inches in size and is bound in black leather with a small brass clasp like those used on the old Bibles.

Saddest Of All Sadness

"What could be more sad," said the schoolmarm, "than a man without a country?"

"A country without a man," answered the pretty girl.

Extend Farmers' Organization

Suggestion Made That Agriculturists Throughout Dominion Should Merge Into One Solid Body

At the concluding session of the United Farmers' of Quebec convention at Montreal, J. J. Morrison, secretary of the United Farmers of Ontario, suggested it is high time agriculturists throughout the Dominion take advantage of their provincial organizations to merge into one solid body representative of Canada from coast to coast.

Farmers, in general, were habitual buck-beaters, but they had no real reason why they should be. They alone held the wealth of their industry, yet they employed middlemen for marketing purposes. Co-operative selling should be instituted, and the lack of that phase of organization had harmed the industry as a whole.

J. W. Ward, of Winnipeg, secretary of the Canadian council of agriculture, also emphasized the necessity for pushing co-operative effort to the limit. He announced that, at the next meeting of the council, to be held in Toronto on March 2, the master would be debated by delegates from Ontario, Quebec, Manitoba, Saskatchewan and Alberta.

Corn in Saskatchewan

Says That Corn Acreage in Province Will Soon Be Doubled

Predicting the corn acreage in Saskatchewan would soon be doubled, P. F. Hoffman, president of the Saskatchewan Corn Growers' Association, at the Saskatchewan Dairy Association convention at Prince Albert, urged all dairy farmers to grow corn. The acreage of \$8,000 last year was the largest planted in the history of the province.

Mr. Hoffman said there was a scarcity of northern grown seed this year. Maple Creek could not begin to fill the demand for 1925. He stated that corn fodder he would have had to buy to the market value of the Maple Creek district.

"He had produced more dry fodder from ten acres of corn than from 100 acres of oats," he said.

Butter Exports

United Kingdom Is Canada's Best Customer According to Figures

In the calendar year 1924 Canada exported 22,423,359 pounds of butter, worth \$8,000,512, as compared with 13,173,711 pounds, worth \$4,905,608 in 1923 an increase of 9,176,238 pounds in value. Losses on exportation amounted to \$3,69,904 in value. The heaviest purchaser of Canadian butter was the United Kingdom, which took 149,844 pounds, valued at \$23,132, followed by the United States, which imported 613 pounds, worth \$21,212. The third heaviest purchaser was Germany, which took 45,615 pounds, valued at \$16,675.

Buy many things you don't need and you may be obliged to sell a few things you do need.

A married woman never thinks of allowing her husband to order her dinner for her in a restaurant.

Ontario and Quebec Get Together

Lt.-Gov. Cockshut of Ontario with the Aide de Camp to Lt.-Gov. Pergaud of Quebec, arrives at the Chateau Frontenac to take part in the Bonne Entente celebration at Quebec.

Attention Is Directed To The Appalling Waste In The Manufacture Of Lumber

Canadian Empire Builder Gone

Forty Years Actively Engaged in Colonization Work

Few men in Canada have been more active, associated with immigration and colonization in the Dominion than Mr. W. K. Ryman, superintendent of the forest products laboratory in the department of interior, brought up the subject, and made the statement that the waste involved in the use and manufacture of forest products is tremendous. Waste in production of lumber, in cutting or making various wood goods, and waste through decay were some of the chief items of wood waste emphasized.

In a report by R. D. Craig, on the forests of British Columbia, the writer deals with the waste of forest products as follows:

"The waste in the manufacture of lumber in this province is appalling to one accustomed to more conservative methods. Huge slabs of absolutely clear wood, 2 to 6 inches thick, are sent to the sawmills, and the boards and timbers which could well be used for some purpose are sent to the refuse burner. The burner is the most conspicuous thing about a British Columbia sawmill. The fire never goes out, and it furnishes a pillar of smoke by night and a cloud of smoke by day. Heavy saws are necessary to 'break down' the large logs, but it is not unusual to see one-inch lumber being cut with a saw that takes out a ½ inch to ¼ inch kerf (cut). It is estimated that at least 25 per cent. of the tree is left in the woods, and another 20 to 35 per cent. is wasted in the mills."

Calling attention to wood waste in manufacture, where the consumption of wood is under control is of first importance. Losses by forest fires, by insect and fungus destruction, by wind-throwing, and other causes are already heavy, and more or less beyond control, but when the lumbermen and millmen undertake to convert the tree into lumber it should be done with the minimum of waste.

Too Much Sectionalism

The East Trying to Enforce Their Ideas on the West

The press of Montreal deplores sectionalism in Canada, and we have been trying to explain to them that it is their own sectionalism they are trying to enforce on the dominion, although they are not sectionalists.

When they say that the west should be reasonable, their idea is, according to the Manitoba Free Press, that the west should recant its views, withdraw its demands, and submit that predominant eastern opinion upon all points in dispute is right. It adds: "Just let Montreal run Canada without question and 'sectionalism' will cease. We shall then be a 'united country'."

That pretty well sizes up the Montreal view as put forward by the Gazette and Star of that city.—Toronto Star.

Corn Silage

Corn and Sunflower Silage Very Similar in Value for Growing Stock

A test conducted on the Indian farm at Sask., experimental farm of sunflower versus corn silage for hifers showed a trifling in favor of corn, but the superintendent remarks that although the corn silage lot were more thrifty and sleek in appearance, the indications are that the two silages are very similar in value for growing hifers. Both were readily eaten and excellent in quality, the corn being in the late dough stage when cut and the sunflowers about one-half in bloom, the latter being also wilted for two days before being placed in the silo, so that there would be no excess of moisture present.

Left Fortune to Servants
Five servants of Lakewood, N.Y., will share \$107,500 through the will of the late Helen Parish, their mistress. Miss Parish also left some thousands of dollars in personal property to these employees.

How some women can ever pretend that they are proud of their husbands is a mystery to other women.

Local and General

There has been a hue and cry going the length and breadth of the Crossfield district that MacKay Bros. are making money off the farmer in the Hog business.

Allow us to contradict this erroneous statement "Bunk." **We make our money off the Packer.**

We pay 10c. per hundred more than others and do not use other peoples money to do so.

If we handled hogs on a commission basis and settled for the hogs a week or ten days after they were delivered to us it would not be necessary for us to invest a dollar of our own money, in that event we would be making money off the farmer.

We have been fortunate to date operating on advancing Market, but prices will undoubtedly drop as they did on Feb. 18th, then the **Farmer will make money off MacKay Bros.** Ask the men who delivered hogs the week from Feb. 11-18.

BACON—All Hogs are Graded for bacon by Government Inspectors.

Admission: Children 25c. Tax 2c. Adults- 50c. Tax 5c.

Mrs. Ivor Lewis left to-day noon for Calgary, enroute to Cranbrook, B.C., where she will visit with her sister for a short time.

The Crossfield and District Board of Trade will hold the next regular meeting in Havens Hall, Monday evening, March 9th, at 8.30 p.m. A large attendance is particularly requested and ladies are specially invited. Mr. J. A. Eoll, special Alberta delegate to the International Convention of Commercial Traders, in London, England, last year, will speak on Wembley Exposition. He has some very interesting items to relate in connection with the Exhibition which should prove of interest to everyone. Mr. Eoll has been well received everywhere he has spoken. Other business of importance will be transacted at this meeting. Let us have a large get together crowd. An entertainment programme will be given and lunch will be served during the evening.

BIRTH

To Mr. and Mrs. H. T. Stewart, at Crossfield, on Sunday, March 1st, a son.

THE TEN COMMANDMENTS OF THE MAIL ORDER HOUSE

- YOU shall sell your farm produce for cash, where you can, for we buy nothing from you.
- You shall believe in us and trust us; but we do not know you and have no confidence in you.
- You shall send your money to us in advance, so we can buy the goods from the factory with your money. You may have to wait a few weeks; but that is our business method.
- You shall get help from your nearest City or Village to build good roads, so you may easily haul our goods from the depot; do not ask help from us—we don't help to build good roads.
- You may buy Church, Bells and Altar utensils from us, and send the money in advance—that's our rule.
- You shall get all the help you can from the business men in your neighbourhood. Although we may have more profit from you than they have it is against our rules to give to your churches.
- You shall convert your neighbours also to our faith so we have no room for more money.
- You shall look at the pretty pictures in our catalogue as often as you can, so as to strengthen your desire for things you do not need, but which you may order with other goods to save freight. Send us all of your ready cash so that you may not have any left to buy necessities from your home dealers.
- You shall believe us rather than your home business men, for we want your trade. We get to be millionaires on your support. Don't be blinded.
- You shall call on the business people of your vicinity for help and credit if you meet with hard luck or sickness. It's your money we want; we don't know you unless your orders are accompanied by cash.

NOTICE To Creditors and Claimants.

In the Estate of George Henry James, of Crossfield, Alberta, Farmer, Deceased.

Notice is hereby given that all persons having claims upon the estate of said George Henry James, who died on the 10th, January, 1925, may file the same with the undersigned solicitor for the executor of his will, by the 6th, April, 1925, a full statement duly verified, of their claims and of any securities held by them, and after that date the executor will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been filed, or which have been brought to his knowledge.

Dated 5th March, 1925.
